

# Ready To Drive Your Business Growth?

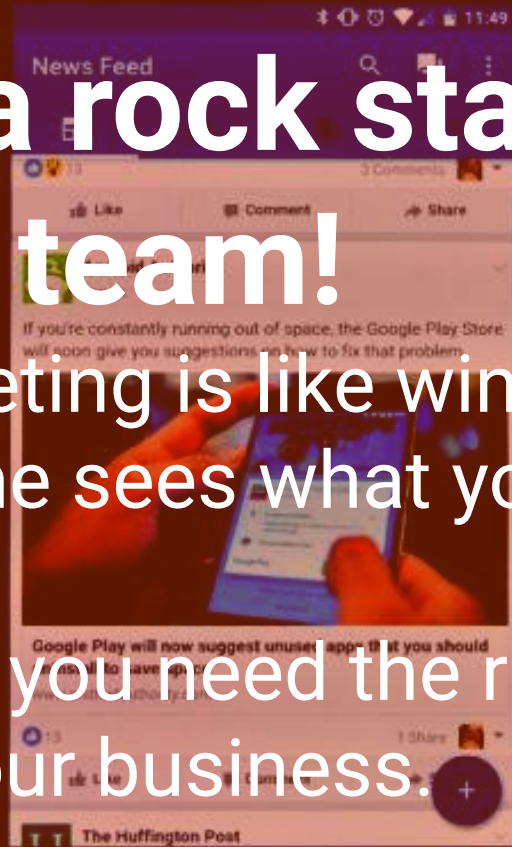

[TinklingD.com](https://TinklingD.com)

# You need a rock star marketing team!

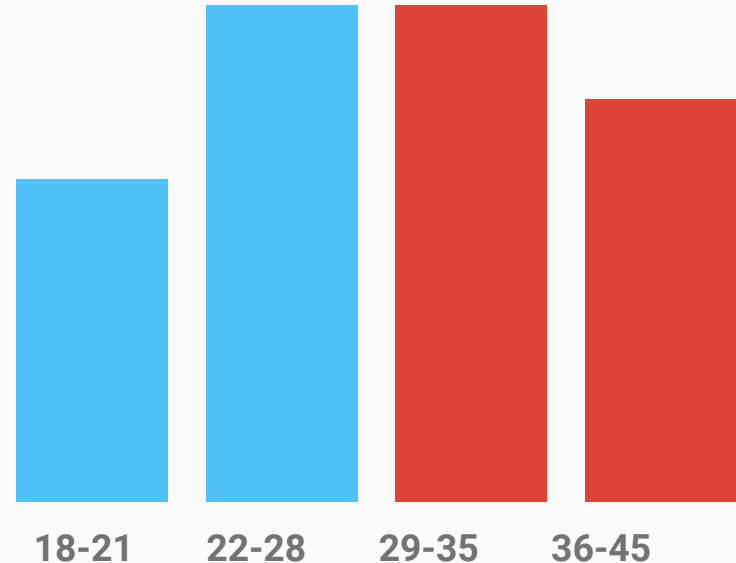

In fact, not marketing is like winking in the dark; no one sees what you have to offer..

In the same way, you need the right light shone on your business.

# The Challenge Here

1. Competitors are relentlessly innovating their digital marketing approach
2. Recruiting in house digital marketing staff is expensive (amidst the responsibilities and risk that comes with managing an in house staff)
3. It's a lot of responsibility to motivate an in house digital marketing team to produce
4. Tracking progress of an in house digital marketing staff is hard if the founder isn't intensely knowledgeable about digital marketing and core modalities.

# Driving Your Company's Digital Marketing Department Just Got Seamless!

We power the digital marketing department of current and future Fortune 500 companies.

We provide digital marketing professionals to work on your brand who will work satellite with your team (i.e. work from our office spaces, but literally work day to day on your brand), while we continuously reinforce these teams ensuring your marketing goals are met.

# Our Offerings

Our first offering is the management bouquet, which means that a complete digital marketing team works on your brand on a very affordable monthly budget, all guided and moderated by a Senior digital campaign strategist who ensures marketing goals are being met.

Our second offering is a dedicated account manager. This works if you have an in house digital marketing team, but need a particular role filled (a dedicated SEO manager, a dedicated Email marketing manager, dedicated graphics designer etc).these managers work exclusively for your brand, work remotely with you (and physically from our office) and receive support from time to time to ensure they hit your company's marketing goals.

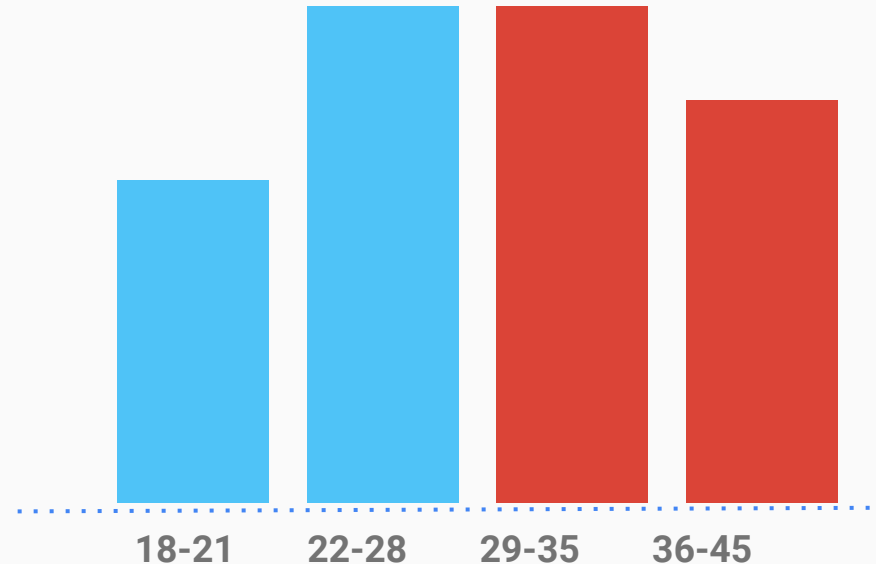

Our third offering is a Special Campaign Service, this works when you have in house team, or are already working with an account manager from TinklingD, or on a management plan, but need to launch a special campaign towards a particular goal. Maybe you are launching a new product line, or suddenly need to drive awareness for a service to take advantage of a season, etc.

# Looking To Reinforce Your Current Teams

Are you in a situation where it is totally impossible for you to work with our remote staff arrangement (even when your current team cost you a lot more), and you need to reinforce your current team?

We provide:

1. Special trainings for marketing teams
2. Special masterclass for marketing managers
3. Digital strategy and brand concept sessions.

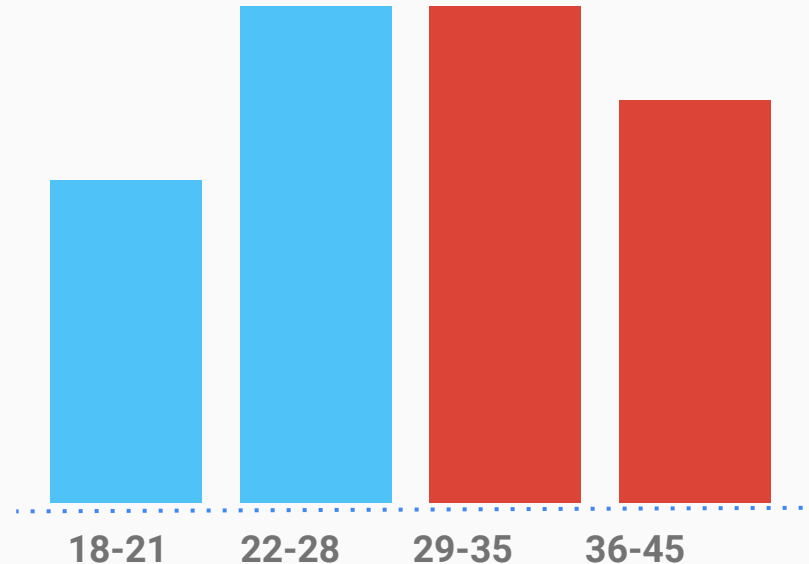

# Starting Afresh?

Is your company just starting out, or you are rebranding or relaunching and you need digital asset created afresh?

We provide:

1. Website Design
2. Website Development
3. Mobile Apps Design
4. Total Company Brand Identity Design
5. Marketing Asset Design & Set Up?

# However, If You Are Starting Afresh?

We always advise that you take up our digital strategy & planning service offering. Our digital strategy session contains:

1. Marketing Analysis
2. Competitor Analysis
3. Market viability suggestion
4. Market penetration strategy
5. Marketing strategy

Even if you have been running your brand for a long while, we suggest to our clients to take on this service at least once a year (Ideally two times). This Digital Strategy and planning service comes with a FREE brand audit for brands that have been in existence before now.

# Our Process

As the market is so wide and diverse, various marketing messages based on behaviour will be used to move leads from cold prospects to sure-fire patrons as per this model.

- VERY CONFIDENTIAL -

Hello,

Thank you for submitting a proposal for our BBC Connected Studio, Growing Mobile Audiences: Nigeria.

We were impressed with the range and quality of proposals that were submitted, and we're very pleased to tell you that your idea has been chosen to the next phase.

We'll be in contact with you within the next 5 days with feedback and next steps, but in the meantime, thank you again for taking part, and we look forward to working with you further on your proposal!

Best wishes,

The **BBC Connected Studio** Team
